

E-GLIDE POWERBOARDS

Powersurf the concrete wave . . .

Acceleration: 0-18 MPH in 4 seconds!

Range: 9-12 miles

Braking: Electric

Motor: 400 Watt

Length: 41 Inches

The E-GLIDE II POWERBOARD is a new and unbelievably exciting electric powered skateboard. It's powerful, high torque electric motor will propel it from 0-18 MPH in four seconds!

The wired hand held remote gives precise control over speed and braking. Its three position speed selector for slow, medium, and fast settings allows beginners as well as experienced riders a choice of speed setting for their riding abilities.

Extremely controllable and maneuverable, even in crowds, the **E-GLIDE II POWERBOARD** can be turned in an eight foot radius, and will carve like a snowboard, even at very high speeds, thanks to its extra large trucks and the largest wheels made for any skateboard

Once you have experienced the speed and excitement of the **E-GLIDE II POWERBOARD**, we're sure you will agree-

THERE IS NOTHING ELSE LIKE IT!
